DRAWING TRANSMITTAL LETTER

Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

This letter will confirm a telephone conversation between Ex. Lele and the undersigned on December 22, 2003, regarding the status of the above identified application. Ex. Lele indicated that the present application appeared to be in condition for allowance in view of the Response and Amendment filed on December 16, 2003 except for two formal matters. In particular, the undersigned gave Ex. Lele authorization to enter an Examiner's Amendment to note that the subject application was filed originally with a microfiche appendix containing a computer program of 75 frames. The remaining informality involved the formal drawings which apparently had been improperly hole punched. Accordingly, new drawings are attached hereto and consist of 4 sheets identical to the drawings of Re 37, 141 that issued on application Ser. No. 08/436,863, filed May 8, 1995, of which the above identified application is a divisional application.

Should any additional information or steps be required in order to place this application in condition for allowance, the Examiner is requested to contact the undersigned attorney of record at the local telephone or email address indicated below.

Respectfully submitted,

  
Charles M. Leedom, Jr.
